#### ABSTRACT

The "Ashtapailu Raja Shiv Chatrapati web Application" is a multifaceted web application dedicated to the life, legacy, and history of Chhatrapati Shivaji Maharaj. This project encompasses various features, including e-commerce for selling Chhatrapati Shivaji Maharaj-related merchandise, profiles of event management professionals, detailed information on historic forts, and interactive maps for exploration. Moreover, the application offers an extensive learning section, catering to users at different levels of expertise. Beginners can access introductory materials, including biographies and books about Chhatrapati Shivaji Maharaj. Intermediate learners will find deeper insights into his life and reign, while the advanced section presents historical letters and evidence from his era. In addition to these core features we are going to introduce some for features through which user can explore about Chhatrapati Shivaji Maharaj, engage in discussions through a community forum, and access content in multiple languages. The project aims to serve as an educational resource, offering curated materials, newsletters, and updates to enrich the understanding of Chhatrapati Shivaji Maharaj's remarkable history. The "Chhatrapati Shivaji Maharaj Web Application" seeks to be a comprehensive and engaging platform for individuals interested in learning, exploring, and celebrating the enduring legacy of Chhatrapati Shivaji Maharaj.

## INTRODUCTION

Ashtapailu Raja ShivChhatrapati is an organization which was formed by our team leader Mr.Vedant Ganesh Karanjule in 2020.In which we study about the all-rounder personality of ChhatrapatiShivajiMaharaj by a technical perspective and trying to tell about Shivajimaharaj 'a person guiding us in every field of life', we also organize various social as well as educational events for providing today's youth a valuable knowledge about their future career, personality development, management skills, leadership etc.TheAshtapailu Raja ShivChhatrapati Web Application is a comprehensive web application dedicated to ChhatrapatiShivajiMaharaj's life, legacy, and history. It features e-commerce for selling merchandise related to Maharaj, profiles of event management professionals, historic fort information, and interactive maps. The application also offers a learning section for users of different expertise levels, with introductory materials for beginners, deeper insights for intermediate learners, and advanced sections for historical letters and evidence. The project aims to serve as an educational resource, offering curated materials, newsletters, and updates to enrich understanding of Maharaj's remarkable history.

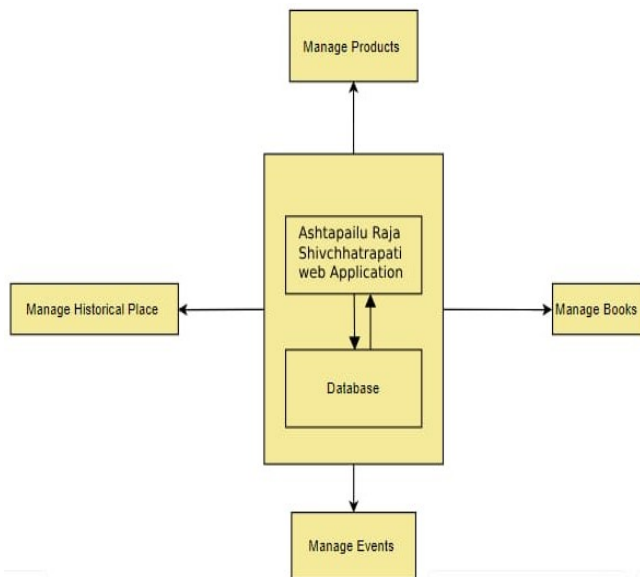

## METHODOLOGY

The project aims to develop a user-friendly web application that serves as an educational resource for individuals interested in learning about Chhatrapati Shivaji Maharaj.

It ensures global accessibility of information about Maharaj's life, achievements, and contributions. The application also provides youth guidance, offering resources for understanding and implementing the ethics and skills of Maharaj in their lives. The project also offers an event management system to empower young individuals in organizing events related to Maharaj's legacy using available resources. Users can acquire merchandise related to Maharaj, fostering a sense of connection and pride in his legacy. The archive system divides ChhatrapatiShivajiMaharaj into three categories: Beginners, Learning, and Advanced, helping students find books based on their understanding capacity. The system aims to provide a comprehensive and user-friendly solution for book purchasing and library access. The event management system allows new and emerging youth to create profiles with information about their previous programs, pricing, mobile number, and location, enabling successful execution of large-scale events. The project also aims to improve tourism and visits to Maharashtra's over 300 forts, museums, and historical places by providing quick and important knowledge about them. Lastly, the project plans to launch its own products of various categories for business.

## LITERATURE REVIEW

Proposed System is web based application using PHP and MySQL. The motive of this Web Application is to allow the user to the search tool and create different combination search criterion to perform exhaustive search.

Making the application AJAX enabled gets rid of these unnecessary delays letting the user perform exhaustive search. The users of this application can easily feel the difference between the Ajax empowered user interfaces vs. traditional user interfaces. Provide Interactive interface through which a user can interact with different areas of application easily. A search engine that provides an easy and convenient way to search for products specific to their needs. In doing so project Web Portal recognizes that with ever-improving technology, work can happen anywhere. But other - equally Important. K not more - forms of work, such as networking, communicating, and learning still need a physical space - a space that Is designed to withstand the rest of time. By transcending what it means to be successful. and what it means to be outdated. In proposed system user can register and search the Shivaji Maharajhistry, Event, Fort Information, Popular Places, Blog, Books, etc.

#### Advantages

- Guide the peoples interested to gather information in correct way.

- Steps towards Entrepreneurship by establishing a merchandise of individual products.
- It will result in growth of our organization.
- Multiple features in single website.
- It will help in improving Productive Knowledge and Management Skills of Today's youth.
- Safe, reliable and Top quality service.
- Everyone who want to Manage events on large scale will become Easy.
- Tourists will get correct places to visit.

#### Disadvantages

- The Event management will be applicable for only few districts till now, later on it will be expanded.
- Requires Internet connection.

#### Future Scope

- The system can be improved by adding new functionalities like Android And IOS Application.
- We are also planning to upload various productive sessions from professionals about Chhatrapati Shivajimaharaj like management, financial management, engineering, business etc.

## REFERENCES

For the references of Archive system books and articles and tourist guide we have the resources of many renowned researchers like Babasaheb purandare, Setumadhavraopagdi, Surendranathsen, jadunath Sarkar etc. and the peoples in the same time period of Chhatrapati Shivajimaharaj like Cosmo the Guarda, Abbe barthelamocarre, Govindnevaskar etc.

Authentic resources certified by Board of Indian historical research. About the event management system we have discovered from our personal experience and some sites like just dial , etc.

In our merchandise we are going to launch the products by analyzing public needs and interests.
